PRÉLONGE

PARIS

# OUR STORY

---

For over twenty years, Evelyne Prélonge has worked alongside leading Haute Couture houses such as Chanel, Balenciaga and Dior, developing innovative materials and material effects.

This experience led her to launch her own 'Home Couture' collection in 2008, dedicated to the world of the House and made from luxury faux furs.

By imagining a collection using the finest materials, we want to infuse interiors with the spirit of Haute Couture, while at the same time creating emotions.

Today, Maison Prélonge has a presence on all 5 continents and aims to perpetuate the values of a gentler world.

# OUR VALUES

---

## QUALITY AS A SIGNATURE

Choosing quality is one of our fundamental values. We take great care in the selection of our faux furs, privileging only the noblest. Designed to last, Maison Evelyne Prélonge collection dresses interiors with incredible softness and vibrant colors.

## A FRENCH KNOW-HOW

Located in the heart of the Vosges, our manufacture sublimates our faux fur. Whether it is for its craftsmanship, its values of tradition and refinement or for its creative spirit, France and its art de vivre are part of our DNA.

## ETHICS, AN EVIDENCE

From the beginning, we have chosen to use faux fur, thus condemning cruelty to animals. We are proud to support PETA, an animal rights organization.

# MADE IN FRANCE

---

**French heritage** is at the heart of Maison Prélonge: whether for its craftsmanship, its values of tradition and refinement or its creative spirit, the French **Art de Vivre** are part of the DNA of our Maison.

Located in the heart of the Vosges mountains, our workshop produces the finest faux fur. It's a human-size workshop that works for some of the biggest names in textiles, and has been with us since the beginning of our adventure.

# CUSTOM SIZE - CONTRACT

**Are you an architect, decorator, hotel or restaurant owner?**

Our team offers you a customization service for the production of plaids, cushions, carpets and bed covers according to your dimensions
