Maison Tisserant

For over 95 years, we have been shaping gilded bronze in our Parisian workshop with a commitment to preservation and innovation. For the Palmette collection, we have drawn on one of the oldest and most organic motifs in the history of the decorative arts: the palmette, born of the observation of fan-shaped palm leaves.

In collaboration with designer Mauricio Clavero Kozlowski, we transformed it into a luminous plant architecture. Through the chandelier, sconces and photophore, we celebrate nature in motion, sublimated by bronze, sculpted by light and reinvented by the hand of our craftsmen.

Mauricio Clavero Kozlowski

A designer of many influences, Mauricio Clavero Kozlowski infuses the Palmette collection with a refined plant aesthetic, blending ancient memory with futuristic lines. Inspired by the rich archives of Maison Tisserant, he revisits the palmette as a symbol of passage between eras, between classical rigor and the freedom of gesture.

His approach blends freehand drawing and 3D modeling, resulting in unique creations that are both rooted in history and resolutely contemporary.
