ORCHIDÉE IMPÉRIALE GOLD NOBILE

In partnership with a team of biophysicists from Palacky University, Guerlain's research has revealed that skin cells emit biophotons that vary with age, a phenomenon that is a sign of youthfulness for the skin.

The new technology at the heart of Orchidée Impériale Gold Nobile skincare is able to help restore the biophoton emission of an aged cell to a level close to that of a young cell¹.

Orchidée Impériale Gold Nobile is a prodigious skincare ritual that visibly accelerates the rejuvenation of skin on the major signs of youth and luminosity. It amplifies 10 signs of youth and revives 6 factors of light.

AFTER 20 YEARS OF RESEARCH INTO ORCHIDS AND THE AGEING OF SKIN CELLS, GUERLAIN SELECTED A PRODIGIOUS ORCHID, GOLD NOBILE (DENDROBIUM NOBILE), FROM AMONG 30,000 SPECIES.
