Why Europe? It's the world's #2 pharma market globally.

Partner with H.A.C. Pharma to ensure your successful entry and maximize impact.

Founded in 2007, H.A.C. Pharma is a PE-backed European specialty pharmaceutical platform committed to delivering essential therapies for patients with limited treatment options.

We partner with global pharma and biotech companies to register and commercialize their medicines across Europe — ensuring optimal patient access through strong relationships with healthcare professionals, medical societies, and regulators.

Our mission is simple: deliver safe, effective, and meaningful medicines that improve lives.

H.A.C. Pharma's vision:

We're the trusted partner for pharma and biotech companies aiming to conquer Europe and strengthen their home markets. Together, we create value that transcends borders.
