

Powering smarter, faster life science partnerships

A purpose-built platform for partnering teams to connect data, decisions, and partnerships across the entire lifecycle.

You're missing opportunities, and your teams don't have a shared view.

Missed opportunities

Opportunities fall through the cracks across teams, processes, and disconnected systems

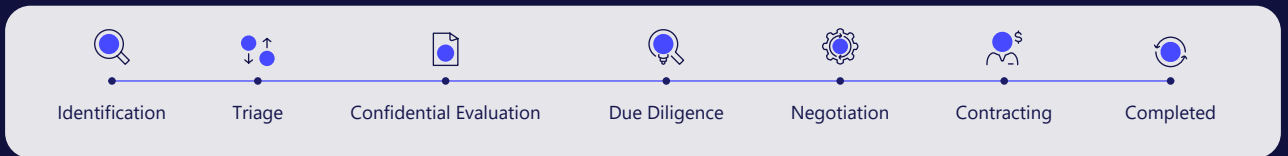

No visibility

No clear view of pipeline, team activity, or decision rationale

Unreliable data

50–70% of data missing or outdated, making reporting, collaboration and AI unusable

One platform across the entire partnering lifecycle

Compliance
Your team actually uses it

- Built for partnering workflows, not generic CRM
- No workaround tools or shadow systems
- Rapid implementation, fast time to value

Trust
Data you can actually trust

- Automated data capture and integrations
- Structured evaluations and institutional memory
- Full auditability and governance

Insights
Instant strategic insights from your data

- Real-time dashboards and reporting
- Pipeline and performance visibility
- Board-ready insights instantly

30%
faster deal closing

24,000+
hours saved per year

Every decision documented

Trusted by 70% of top 50 pharma

Build your data foundation for AI-driven partnering
