

Serving Life Sciences Worldwide since 2010

Chemistry in Action, Therapies in Reach...

Oxeltis is your trusted partner in medicinal and fine organic chemistry. Combining scientific excellence, meticulous quality, and operational agility, we deliver custom synthesis solutions that power pharmaceutical, biotech, and academic innovation—advancing your discoveries from concept to clinic.

Complex multi-step synthesis at various scale

Heterocycles, Nucleos(t)ides, Peptides, PROTACs.

Assay development enzyme & cellular screening

In collaboration with Partex.ai

Advanced computational chemistry/molecular modeling

In collaboration with Molecular Forecaster

Highly qualified team

50% Ph.D., 50% M.Sc.
complex molecule design, synthesis, and optimization

Fully equipped laboratories

(SFC, LC/MS, Flowchemistry, Photochemistry, etc.)

Communication & Trust

High level of communication, flexibility and confidentiality

Why choose Oxeltis ?

- ✓ Expertise you can trust
- ✓ Agile, Tailor-Made Solutions
- ✓ Competitive pricing
- ✓ Uncompromising Quality & Reliability
