Toile de Laque®

Our lacquered cotton canvas provides a genuine and unique atmosphere that recreates the richness and the splendor of the traditional lacquers.

Designed in our workshop to be easily and quickly installed, it is applied very easily to diverse surfaces : walls, decorative panels, furniture or more...
It offers a wide range of colors, patterns and faux finishes : smooth, cracked, embossed textures.

Special decors can also be created according to your specifications.

Our Toile de Laque ® is the achievement of our polychromist expertise acquired through our experience of restoration and decoration for private clients, interior designers, renowned institutions and museums.
