The french manufacturing Bonnefoy Créations

RECYCLED MATERIAL

Making something new with old is so much better for the planet !
Offering a responsible, durable and warm material was obvious for Maison Bonnefoy !

The French spinning mill, which manufactures this 100% recycled yarn, has developed a technique to transform used clothes into a quality yarn. These threads, already colored, are not bleached or dyed and do not undergo any chemical treatment ! They are thus certified GRS (Global Recycle Standard), an international standard which ensures the traceability of recycled raw materials, and controls social, environmental and chemical production practices.

For women and men
70% Wool - 25% Polyamide
5% Other fibers
11 colours available

HEADBAND CLAUDE

Ref : 21 MB 770.8

ORGANIC WOOL

Maison Bonnefoy has knitted an organic wool yarn to offer a range that respects not only your skin but also the environment.

The advantage of this material is that it is soft, natural and temperature-controlled. The wool fill comes from Austria and the Czech Republic. The wool is then spun and dyed in Germany with organic products, all GOTS (Global Organic Textile Standard) certified.

For women and men - 100% Wool - 7 colours available
